Figin, Ill., February 24.—Charles Trelber, a motorcycle enthusiast, gave the news to the city's reading public in an unusual emergency. As the result of Friday's sleet storm, which tore down all the electric wires and forced the shutting off of all current, the electric-driven newspaper presses were idle. Then the Elgin Daily Courier remembered Treiber and his motorcycle, so man and machine were rushed to the publishing office. The motorcycle was clamped to the floor of the pressroom and connected with one of the presses.

According to Dr. Ely, the habits which prevent the spread of religion are lying, cheating, gambling, sefishness and greed.

HOUSE BY PARCEL POST.

Lynchburg Firm Sends Brick to Be Used in Construction.

Lynchburg, Va... February 24.—Messrs. Adams Bros.-Paynes, of this city, sent by parcel post Saturday afternoon a brick of local manufacture to be used in building a brick house at the Coliscoum. This brick will be one of 25.09 sent by parcel post from every brick plant in the United States to be used in the construction of this house, which will be one of 25.09 sent by parcel post from every brick plant in the United States to be used in the construction of this house, which will be given away and re-erected after the exposition.

The idea was originated to test the merits of the parcel post system, and it is certainly a novel one. A record will be kept of each brick from the time the brick is mailed until it is delivered in Chicago, in order to see how speedly Uncle Sam can deliver a brick house by mail.

It is probable that Uncle Sam's mail-carriers in Chicago will not be overly enthusiastic for this method of delivery of a brick house. Other mail-carriers throughout the country will watch the experiment with interest and fear and trembling. While the brick fireproof home is becoming more and more popular because of its permanency, economy and superiority. It is not probable that they will be delivered by mail to any alarming extent.

Bristol Va., February 21.—The efforts of Senator Luke Lea to have the Bristol Va., post-office abolished by a congressional investigation, will be resisted by prominent citizens of Bristol, Va., who will call upon their representatives in the Senate-Senators Martin and Swanson-to defend the post-office.
